Used for wall surfaces

100%
WILDSTONE

100% WILDSTONE

Nature is one of Vanlei's eternal shareholders.
Natural textures are the most beautiful, the most classic
and the most eternal.

We are loyal to the raw materials in nature,
using natural mineral stone powder, and 100% promise that no foreign
organic color paste or additional preservatives are added.

LIME

SERIES

In Natural We Trust

Every texture is a natural language
It is also the breathing rhythm of space

Natural Mineral

Porous structure, diluted to regulate humidity

Mineral substrate

Natural ingredients, safe and non-toxic

Antibacterial

Inhibit mold growth, safe and durable

Detailed tactile sensation

Warm texture, gentle and skin friendly

Construction
video

Mineral Texture, Natural Living.

29 ° enamel soft gloss
Warm and moist stone

Antiquing

YSS Base - RL+M10(20g)

Provide two types of base materials, pre mixed color system and wiping system
Unified use of Vanlei inorganic color paste for color matching

Texture

YSS - Base

Matte matte texture
not easily dirty and resistant to touch

vanlei®

Antiquing

YSS Base - RL+M01(100g)

YSS Base - RL+M15(20g)

YSS Base - RL+M12(20g)

YSS Base - RL+6276(10g)

YSS Base - RL+M10(20g)

YSS Base - RL+6273(30g)

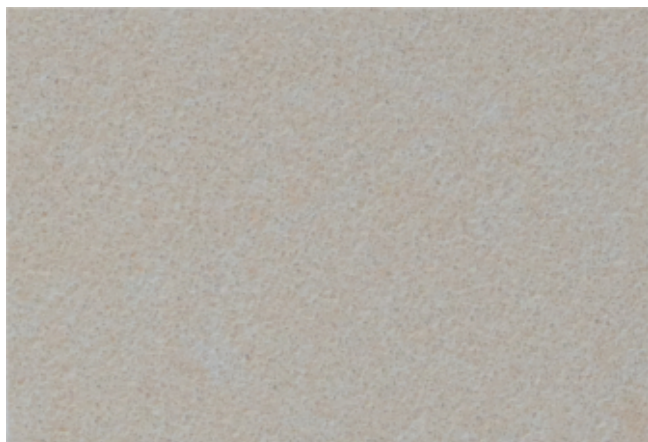

It is normal for the color card color to differ slightly from the actual material color

Excellent waterproof and moisture-proof performance
Has good waterproof performance

Antiquing

YSS Base - RL+M03(100g)

YSS Base - RL+M32(10g)

YSS Base - RL+6274(10g)

YSS Base - RL+M38(5g)

YSS Base - RL+M31(10g)

YSS Base - RL+M50(5g)

It is normal for the color card color to differ slightly from the actual material color

Strong transparency,
presenting a natural mineral refraction halo

YSS - 6281(100g)

29 ° soft light
The most natural liquid stone

High aesthetic value, 100% natural, zero VOC, zero pollution,
energy-saving and temperature control

It is normal for the color card color to differ slightly from the actual material color

100% WILDSTONE

EN.

Product Overview /	The name "Wildstone" in Vanlei is derived from the native landscape of the countryside, without excessive modification of the land, grassland, and exposed rock layers, which is the closest visual impression to the initial state of nature It emphasizes 'nature that has not been designed' The undulations left by the wind blowing through the fields and the traces of rainwater seeping into the soil layers are transformed into the language of wall texture The material adopts an environmentally friendly formula system to reduce the dependence on high polluting resins, ensuring the stability and breathability of the wall during long-term use In Vanlei, as a liquid stone, it has a delicate texture, presenting the rough touch and warm luster of natural stones, and possessing high weather resistance and plasticity Fieldstone does not emphasize decoration, but exists as the base color of the space Suitable for residential living rooms and rural homestays, it brings the space back to a quiet and unexpressed state This is a naming that returns to the origin
Main ingredients /	Fully blended hydrated lime, fine marble powder, inorganic pigments/fillers, nano calcium carbonate powder
Tool /	Batch knife - YG114, shovel knife - YG075, seaweed sponge roller - YG163, natural seaweed roller - YG063, wool roller - YG090, Carbon crystal pattern small roller brush - YG135, polishing machine - YG162
Color Mixing /	Use natural stone color and inorganic color paste for color matching
Application /	Suitable for indoor large walls, interior living room walls, and other home spaces, as well as commercial indoor spaces
Matching products /	Vanlei Penetrating Primer + Vanlei Wildstone + Vanlei Ultimate matte finish
Coverage rate /	Color coating: 1.8-2kg/ m ² /2 layers Texture: 3.5-4.5kg/ m ² /2 layers, depending on the thickness of the texture
Net Content /	20kg

Roller coated Vanlei Gold white/transparent primer (1/2 coat) Mix 15-20% water for use

Adjust the water addition ratio according to the temperature during construction Batch 2 times

After thorough drying, polish

Polishing process:
180 fine grinding -320 mesh precision grinding
~1000 mesh polishing (optional)

Cover layer (recommended to use seamless cover). Apply evenly twice with a roller add 10-15% water

After thorough drying, use a seaweed roller to wipe the color, and choose the ultimate matte finish
