

SILKENOVA

「SILKENOVA」，Once again, the combination of "velvet" and urban harmony not only conveys the smoothness and elegance of silk velvet, but also highlights the fashion and delicacy in urban life
In terms of effect, we pursue the ultimate skin friendly touch like silk coating. Using ultra-fine velvet material to create an extremely delicate and dense surface. It not only provides visual warmth, but also offers a tactile sense of security wrapped in softness

Main ingredients	Clean acrylic lotion, nanometer glass beads, nanometer pearlescent powder, fiber
Application	Indoor, wall decoration use, especially for large areas, not suitable for outdoor use
Supporting system	Primer (5kg) + Silkenova (5kg)
Supporting ratio	Primer: (5kg): 100g Inorganic colorant Silkenova: (5kg): 50g or color grading
Tools	Wool roller - YG090 yarn racket - YG159
Base plane requirements	① New wall construction: Remove surface dust, grease, and loose putty. If there are pores and cracks, repair them. The wall must be firm, clean, dry, and flat ② Repainting the wall: To remove loose and unstable paint film, remove dust and powdery impurities from the wall, level and polish it, the wall must be firm, clean, dry and flat ③ The surface humidity of the pre coated substrate is less than 10%, and the pH value is less than 10 ④ To ensure the best wall coating effect, it is strongly recommended to use it in conjunction with primer ⑤ Due to the thin layer of the main material, it is recommended to apply a smooth rolling coating as much as possible during the construction of the base to increase the smoothness and tactile sensation of the main material
Reference dosage	Primer: 4-5 m ² /kg/2 coats Silkenova: 5-6 m ² /kg/2 coats
Water addition ratio	The maximum proportion of material added to this product shall not exceed 15%
Construction method	① Roll coat two coats of primer (white alkali resistant sand primer with slurry), mixed with 20-25% water for use ② Use a wool drum to roll and coat once (add 10% water to the main material), and before it dries, use a yarn swatter to lightly tap irregularly ③ After drying for 6 hours, repeat once Note: The wool drum should be coated with material for the first time and evenly spread on the tray before rolling on the wall to avoid clumping Usage tip: Before using the yarn swatter, it should be completely soaked in clean water and free of water stains to avoid sucking away the original materials on the wall According to the design concept of the product, Vanlei suggests using a gold matte finish to increase the adaptability of the product
Shelf life	At room temperature and in a dry state for 24 months (when the original product leaves the factory), mixing the main materials with water will inevitably affect the shelf life
Standards	GB 30981.1-2025

 Packaging: 5L	 Reference dosage: 5-6m ² /kg/2 Coats

SILKENOVA

The ultimate skin-friendly touch like silk

City Series

5 City Traces Series

/ SILKENOVA

SILKENOVA.

Pursuing the ultimate skin friendly touch like silk coating

Color matching

Silkenova is relatively lightweight
The final decorative finish layer has a thickness of 0.05-0.06mm, making it unsuitable for direct application to existing medium textures
On surfaces like orange peel or those with a light skip spatula, the base surface should be reworked and evaluated

Color scheme selection

It is in a white state when not mixed
The basic state is white

Silkenova
Based on its bright white, pigment-free natural state
Supplemented with inorganic pigments to match the color scheme

Use of pigments and additives
Paired with Vanlei professional colorant (50g/bottle)
Inorganic color paste is used
