LIME

SERIES

100% FIELDSTONE

Material is space
The gentlest language.

100% FIELDSTONE

EN.

Product Overview /	The name "Fieldstone" in Vanlei is derived from the native landscape of the countryside, without excessive modification of the land, grassland, and exposed rock layers, which is the closest visual impression to the initial state of nature It emphasizes' nature that has not been designed ' The undulations left by the wind blowing through the fields and the traces of rainwater seeping into the soil layers are transformed into the language of wall texture The material adopts an environmentally friendly formula system to reduce the dependence on high polluting resins, ensuring the stability and breathability of the wall during long-term use In Vanlei, as a liquid stone, it has a delicate texture, presenting the rough touch and warm luster of natural stones, and possessing high weather resistance and plasticity Fieldstone does not emphasize decoration, but exists as the base color of the space Suitable for residential living rooms and rural homestays, it brings the space back to a quiet and unexpressed state This is a naming that returns to the origin
Main ingredients /	Fully blended hydrated lime, fine marble powder, natural colored sand, nano calcium carbonate powder
