

Vanlei Global Engineering
Philippines / The Strait Resort & Private Villas

Project Address

The Strait Resort & Private Villas

Philippines · Bantayan Island

Project Overview

The Strait Resort & Private Villas

Bantayan Island, this pristine hidden gem, has been revitalized by the completion of The Strait resort complex. Wanlei Coatings integrated architecture into nature with 120,000 square meters of artistic paint. Apartment facades display a “golden conch gradient” that shifts with sunlight, while the “glazed water ripple” effect on villa pool floors increases water refraction by 12%. When guests immerse themselves in the infinity pools, every glance reveals visual wonders crafted by artistic paint and Pacific light.

Area: 120,000m²
