Gamazine

Carefully Selecting Each Individual
Rock Particle

It is completely normal for there to be slight differences between the color on the color card and the actual material. Please forgive us

GAMAZINE

Gamazine, Each rock particle is carefully selected, and every plump sand has a unique luster, crowned with a unique flowing pattern. With its soft and elegant colors, "Vanlei" not only pursues overall beauty, but also highlights the uniqueness of the living room walls

EN

Main components

Nano emulsion, selected rock particles, inorganic rod soil, nano calcium carbonate powder, purified water

Features

- A. Selected rock particles, as full as gold
- B. Natural color, flexible and thick material
- C. Various artistic styles, choose as you like
- D. No seams, no harmful substances, strong waterproof and stain resistance

Scope of application

simple art decoration style, suitable for interior and exterior walls
(high-end banquet halls, commercial hotels, lobbies, villas)

Supporting system

Alkali resistant primer + Gamazine paint (medium and fine sand) + Matte finish

Color selection: Gamazine paint Vanlei dedicated color card

Consumables standard: 1.5-2kg/m²

Supporting tools: wool roller, batch knife, grinding plate

Base surface requirements

- 1、 Water-resistant putty powder must be used, the surface is smooth and does not fall off
- 2、 (Slight) powder fall off: apply penetrating primer by roller, then let stand for 12 hours

Construction steps

- ① Roll coated alkali resistant primer must completely seal the base layer
- ② Use a batch knife to thin batch and level once (there may be leakage at the bottom)
- ③ Mix the main material with about 3-5% water, thin batch for the second time, use a grinding plate before it dries, circle and grind the whole back
- ④ After semi drying, use a grinding plate to press back and scrape out the insect infested texture
- ⑤ After drying, lightly polish and roll coat with a matte finish
